COMMISSIONER'S REPORT.

To the Citizens of Hillsborough County:

The commissioners of Hillsborough county hereby submit their annual report for the year ending December 31, 1912, together with the reports of the superintendent of the county farm, clerk of the superior court, sheriff, jailer, treasurer, auditors, and solicitor.

The county farm at Grasmere is still under the efficient management of Mr. Fordyce W. Russell, superintendent, with Mrs. Russell as matron, and James M. George assistant superintendent.

The health of the inmates during the year has been very good, although quite a number of the old people have passed away. There has been no epidemic among the children, and no contagious disease that has required quarantine.

The hospital has had an increased number of patients during the year, and the new building for tubercular patients has had its full share, and is proving a valuable addition to the hospital. The physician in charge was Dr. C. W. Milliken, from January 1, 1912, to May 1, 1912, and then being desirous of again taking up his private practice, his place was filled by Dr. C. A. Folsom of Manchester, while Dr. E. B. Sweatt of Grasmere has continued to act as assistant physician. These men have all labored faithfully, and have met with the best of success.

Your commissioners were able to retain the valuable services of Miss Addie M. Moore as superintendent of nurses, and under her painstaking care the work of the hospital has prospered. Several of the nurses will graduate during the coming year. We feel that the training school for nurses established a few years ago is proving a great success. Dr.

Folsom has been able to bring some of the best medical authorities in the state to his assistance as lecturers, thus giving to the students a great variety of information from the best authority possible.

It has been the policy of the commissioners to keep the prisoners sent to the county farm at work, as contemplated by the court from which they were sentenced. With this object in view we have in addition to performing the ordinary work of the farm, dug out a large number of boulders from the fields and the prisoners have broken them up with sledge hammers to a size suitable to be used for making or repairing highways. This has served the double purpose of improving the farm, and of furnishing work for the prisoners.

Also when opportunity has occurred, they have been worked outside the farm on the highways, as well as for farmers in the vicinity, and in this way they have earned over eight hundred dollars during the year.

We have during the past year made several improvements which seemed necessary, among which might be mentioned a twelve-foot veranda on the east side of the women's ward of the main almshouse, two stories high, the lower floor to be used for the children in the nursery, and the second floor for the old ladies to use in pleasant weather as an open air sitting room; also, a wide porch has been built over the main entrance to the almshouse to protect people who enter from danger of falling ice or snow in the winter and to keep the stone steps from being coated with ice in freezing weather.

A new seventy-five-ton round silo has been added to the barn equipment, making it possible to store more ensilage for the cattle.

In the laundry the work has increased to such an extent on account of the hospital washings, we were obliged to install more modern machines to do the work and have purchased two new washing machines and a drying machine which now places the department in first-class condition.

We have the work well in hand of installing a new electric pump to raise the water from the springs under the hill to

the reservoir on the hill back of the hospital. When this is completed, we expect to make a saving of more than a thousand dollars per year. We cordially invite all taxpayers of the county to visit and inspect this institution and see for themselves how their money is being expended and how the unfortunate are being cared for.

The county jail at Manchester is still under the efficient management of Jailer George H. Phinney, who, with his very capable wife, are still doing good work for the county in their chosen field of work.

The expense for the support of children continues to increase each year. More stringent laws should be passed for those who wilfully abandon their wives and children, and to those who are in any way responsible for children being brought into the world to become a public charge.

While the expense for board of children has increased the past year, we have been able by making careful investigation of applications for county aid, to materially reduce the amount expended, said amount being nearly \$4,600 less than that paid out in 1911.

Your commissioners wish to express their thanks to all who have, in any way, rendered assistance during the year, and to express the hope that the work of the board has met the approval of the taxpayers of the county.

Respectfully submitted,

HERBERT O. HADLEY,

ALBERT T. BARR,

JAMES H. HUNT,

County Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Honorable Board of Commissioners of Hillsborough County:

I hereby present to you my eighth annual report as superintendent of the County Almshouse and House of Correction for the year ending December 31, 1912.

There have been five hundred and nine persons admitted to the almshouse and hospital during the year, and a large portion of this number have been able to do but very little work.

There have been sentenced to the House of Correction two hundred and sixty-seven persons during the year, some of whom were unable to do any work at all, while others could do only light work.

C. A. Folsom, M. D., of Manchester, and E. B. Swett, M. D., of Grasmere, have looked after all needing medical and surgical treatment.

The crops raised on the farm this season have been good, especially the corn crop, making it necessary to erect a new 70-ton silo, in addition to the two old ones, with a capacity of 134 tons.

There has been a two-story piazza built on the east end of the almshouse for the benefit of the nursery, children and women in the almshouse hospital department. There have been a cylinder dryer and a larger mangle added to the laundry, which makes the drying and mangling of the clothing much easier.

There has also been installed an electric pump to be used in place of the steam pump for pumping the water for the institution.

I wish to thank the W. C. T. U. for fruit, entertainment, books for the library, flowers, cake, and toys for the children.

I return thanks to the different individuals who have furnished reading matter, which has been greatly appreciated by the inmates.

I wish to thank the Rev. E. C. Goodwin of Grasmere and the Rev. Fr. J. J. Brophy of Manchester for their faithful attention to the spiritual welfare of the inmates.

To the officers of the institution and to you, Messrs. Commissioners, I extend thanks for your assistance in my work.

F. W. RUSSELL,

Superintendent.

Balance against the farm or net expenditures for the year ending December 31, 1912.....	\$61,522.53

Number of weeks' board furnished prisoners and inmates, not including officers and nurses, 23,600, and 1 day, less 1,964 weeks and 3 days actually paid for, giving 21,635 weeks and 5 days.

Dividing the net expenditures of the farm, \$61,522.53 by the above number of weeks, gives \$2.84 as the cost per week for each inmate.

REPORT OF COUNTY PHYSICIAN.

To the Honorable Board of Commissioners of Hillsborough County:

GENTLEMEN:—As my term of service began on May 1, 1912, this report covers four months of the work done by Dr. Miliken.

The medical work of the hospital and the institution as a whole has been carried on by the daily visits of Dr. Swett or myself.

The records show that there has been a considerable increase in the number of patients treated, as is only natural from the increasing population of the county. In fact it has been hard at times to provide room for all those that asked for admission, therefore it seems probable that in the near future some provision for more room may be needed.

The tubercular wards are filling a long-felt need. Many of the patients have improved and some have so far recovered that they have been able to resume their occupation and even their own living. Those cases that have proven incurable have been cared for and thus prevented from becoming a positive danger to others.

The training school has now its full number of nurses and orderlies, and under its efficient superintendent is doing most excellent work. Many of the physicians of Manchester and surrounding towns have kindly given lectures on various topics, so that the school is able to comply with the rules laid down by the State Board of Registration for Nurses.

REPORT OF CHAPLAINS.

To the Honorable Board of Commissioners of Hillsborough County:

GENTLEMEN:—My report for the year just finished furnishes no changes from what I have already said in former reports. The sick, the poor and other inmates of the Institutions have been attended regularly and every possible consolation given to them.

For Mr. and Mrs. Russell and other officers, and for Dr. Folsom, Miss Moore, and the nurses I have but words of praise for their kindness towards both inmates and myself.

Respectfully,

JOHN J. BROPHY.

December 31, 1912.

To the Honorable Board of Commissioners of Hillsborough County:

GENTLEMEN:—I desire to express my appreciation of your administration in all its relation to my services as chaplain. Every facility for ministering to the spiritual needs of the sick and unfortunate has been afforded. Regular services have been held during the year, and at burials, as one after another has passed away. We have appreciated all the courtesy shown by the officers, and wish to thank them for their kindness. As heretofore we desire again to express our sincere appreciation of the kindly assistance of Superintendent Russell and Mrs. Russell.

Respectfully,

E. C. GOODWIN.

JAILER'S REPORT.

To the Honorable Board of Commissioners of Hillsborough County:

GENTLEMEN:—Your jailer desires at this time to extend his heartiest thanks to your board for their extremely kind and courteous treatment during the past year.

With another year's occupancy of the new jail, no mechanical faults have developed and it is doubtless ready now for many years of successful use.

Religious services have been held under the direction of the East Manchester W. C. T. U., and also by the Rev. J. J. Lyons of St. Anne's church.

SOLICITOR'S REPORT.

To the Honorable Board of Commissioners of the County of Hillsborough:

During the past year our grand juries have returned a total of two hundred and fifty-eight indictments which, with the average number of appeal cases entered from lower courts, has made the superior court work very considerable. These have been disposed of in various ways, but for the most part respondents without previous criminal record, or persistent criminal tendency, have either been sent to the house of correction for a short term or been given an opportunity to reform, depending upon the merits of each particular case.

Many cases have been continued for sentence or had sentence suspended. This practically puts the respondent on probation and in most instances has brought about marked improvement in persons accused. If such persons later break the law and severity follows, they themselves have furnished ample reason for it. In line with this practice seventeen were sent to state prison during the past year. Included in this number were two horse thieves, a class of offenders from which Hillsborough county in the past has suffered greatly.

In addition to the court work, which is most in the public eye, the solicitor's office has received many complaints from the country towns. All these have been thoroughly investigated and where facts warranted, investigation has been followed by prosecution and conviction.

In his work your solicitor has had the cordial support of all county officials and he takes this opportunity to thank them for the same.

PATRICK H. SULLIVAN.

Dated December 31, 1912.

AUDITORS' REPORT.

In accordance with the provisions of chapter 87 of the Laws of 1897, we have examined quarterly during the past year the accounts and vouchers of the county treasurer, the superintendent of the county farm, the jailer, and the county commissioners. We have found their accounts correct and properly vouched. So far as is possible for us to determine, the prices paid were generally reasonable and the county had the benefit of the expenditures. For a detailed account of the receipts and disbursements we refer to the tabulation of the treasurer's report printed on another page.

The year has seen further improvement in the conduct of county business. The treasurer has been alert in the conduct of his part of the county business and leaves the office with credit. The commissioners have been quick to respond to minor suggestions and to institute stricter supervision over expenditures. They are making progress steadily in the right direction. There is still room for improvement in the system of giving aid, however. The individual dealer should be made to feel that his bills are being scanned item by item. The practice of issuing an order for so many dollars' worth of food, which the dependent may select, as he sees fit, inevitably leads to two evils, the unwise purchase of articles of little food value and relatively expensive, such as doughnuts and cookies, and the tempting of the dealer to work off on the dependent, fancy articles, canned shrimp, for instance, which may have become unmarketable (although fit) with his regular customers. While it is impossible to check this abuse totally, the system adopted by the overseer of the poor for Manchester of having a list of articles printed on the back of the

order from among which it must be filled, is a long step in the right direction, although its adoption in county business is not as feasible as in city business, for obvious reasons.

Expenditures in Nashua have shown a noteworthy decrease, for which the most credit must be given Commissioner Hunt. The county farm problem is still with us. The prisoners should be set to work at productive labor as are the inmates of the jail. While the conditions are not the same, a beginning might be made and something accomplished to make Grasmere a place of punishment and profitable labor apart from farm operations. If, to accomplish this result, legislative action is needed, now is the time for the county delegation to get to work. The jail, as conducted by Mr. Phinney, is an object lesson of the possibilities of Grasmere. This is not said by way of criticism of Mr. Russell, but as suggestive to the county convention. Both institutions are models of cleanliness, neatness, order, and efficiency so far as they go. We call attention to what we said on this subject last year.

There is one great problem, however, confronting the people of Hillsborough county and the state, and as well, to judge from current literature, the people of the entire country. This is the problem of the child of dependent parents. It presents not only an economic but a grave sociological question.

Hillsborough county, as a political unit, with a population of about 130,000, expended last year for the care of children in institutions and homes of people mostly not kin to them, approximately \$25,000. But it is not the cost, but the fact that this sum represented caring for about 350 children, that is important. Of these about 100 are boarded in private families, which includes about 25 cared for by one or the other of their own parents, on a direct allowance of \$1.50 per child weekly. The remaining 250 (we are still speaking in approximate figures) are quartered in various institutions, mostly in Manchester and Nashua.

Note three facts to properly appreciate these figures: (1) No account is here made of such children as are incidentally

benefited by the intermittent aid furnished their parents, because we are referring simply to money paid at the rate of \$1.50 per week for care of specific children; (2) these children are only the *county* dependents, by reason of having acquired no settlement in any particular city or town. We must remember that each city and town, has its own dependents who *have* acquired settlements there. For instance Manchester cared for 39 dependent children, and expended therefor \$1,707 last year; Nashua probably half as much and each town something in proportion to its population. It is perhaps safe to say that out of our county population of 130,000, there are approximately 450 children who receive direct aid; (3) finally these children are all of tender age. The law directs that orphans shall be bound out when practical and so no account is here made of those so disposed of for they then cease to be county charges.

These facts and the causes and consequences of them are appalling. To have 450 young children out of a population of 130,000 brought up in institutions is not good either for the children or the state. There is no need of eloquence to drive the situation home. The facts speak for themselves. There is no complaint to be made of the care these children receive in these institutions. It is the meaning of the situation that puts them in the institutions, to which we wish to call attention.

Comparatively few of these children are orphans. Frequently the one parent is a widow with several little ones to support; she must labor herself and place some of the children with the county authorities. This phase of the problem often can be and is met by the county commissioners wisely allowing the woman what it would cost the county to take care of all her children. A liberal interpretation of the law would permit them to pay her enough so that she need not work out all day. This is the course of true wisdom and justice. Because of the obstacles to pursuing this method, several states now have laws designated as "Widows' Pensions," "Widows' Subsidies," "Mothers' Allowances," and the like. The theory

of them is that the mother should be paid enough under all the circumstances of the case to bring up her children properly. These provisions are one of the fast developing, scientific methods of alleviating the evils of poverty. Some such legislation may be necessary in this state; there is a question now how far the county commissioners may legally go. Certainly ours are proceeding in a broadminded way. Sad to say, however, too often, in fact frequently, the mother prefers to place her children in an institution and work in the mill. She will visit the little ones but she prefers to work out rather than virtually be paid for working in her own household for her children. There is no use denying the fact that there is a tendency among many women to feel less strongly than they should, the obligation of the family tie and the responsibility of bringing up their young. The cause may be economic or moral; it is prevalent at any rate.

The other phase of the problem is far graver. So very many of these children have been deserted by their fathers. The wife is unable to support them; the county is the only resource. This evil is increasing year by year. Some states attempt to check it by vigorously pursuing the deserter and extraditing him wherever found, regardless of expense, and punishing him severely. When this can be done in this state and the man put at hard labor, the proceeds to be used for his family, some improvement will be noted. But here again the cause may be either moral or economic; it matters not greatly which, the menace is the same.

Then again there are the numerous cases of illegitimate children, which almost always come to be county charges. The county commissioners have heretofore called attention to the fact that the expense to the county for aid to dependent children was constantly increasing. It is largely beyond their power to bring about any betterment.

We thus solemnly call attention to these facts because they come to our notice in auditing the bills of the county and in accordance with a liberal interpretation of the statute direct-

ing us to make such recommendations as we see fit, we recommend that the people of the county consider what is going on in their midst.

MANCHESTER, N. H., January 10, 1913.

In closing I would call the county commissioners' attention to the fact that while the legislature authorized the county of Hillsborough to build a new house of correction, and a new jail at an expense of \$125,000, they allowed the county to issue bonds for that purpose only to the extent of \$100,000, leaving \$25,000, which had to be paid out of the money appropriated to meet the regular current expenses. I would advise that the county commissioners add to their estimate of the expense incident to running the county for the next two years the above sum, so as to save the necessity of borrowing money each year to take care of that item.

Also that as the population of the county is increasing rapidly each year, the cost of maintaining the different departments such as county farm, support of children, etc., is increasing in proportion; and that the appropriations for the different departments of the county have failed to increase as fast as the expenses for these departments.

Any discrepancy between the total disbursements for the different departments of the county, as shown by my report and by that of the county commissioners, is due to the fact that some of the vouchers issued from the county commissioners' office were not cashed in time to enter into my report.

Respectfully submitted,

IRVING E. FORBES,
County Treasurer.
